Dick Denby
Denby Transport Ltd.

Dick has a long a varied career history centred around transport and logistics.

1953 to 1955 national Service in the Royal Navy.

1955 joined Lincoln Tyre House, a Denby family company.

1961 moved to the village of Langworth to take over the newly acquired loss making transport company then to be called Denby Transport, as Director and General Manager.

1967 moved the company to Lincoln to newly built premises.

1968 started the warehousing business.

1973 started international hauling between UK and France - by chance just as the UK joined the EEC.

1978 moved to a bigger site.

1984 Peter Denby joined the company.

1984 Board member of Denby transport.

2001 conceived the idea of "B" doubles with active steering to enhance productivity for the exploding volume of 'high cube' cargo. Dick continues to advocate this concept.
